LED DIMMER SWITCHES

DALI USB PC Interface Module for DALI Systems TRIDONIC

Technical Data	
Input:	USB
Output:	6 mA
Dimmable:	DALI
Size:	101x51x29,5 mm
IP Protection:	IP20
Use:	Indoor
Brand:	TRIDONIC
Warranty:	TRIDONIC 5 Years
Working Temperature:	0°C ~ +50°C
Certifications:	CE & RoHS

Product description

This USB Programmer allows us to connect a computer to DALI comfortDIM Systems. **The programmer serves as an interface between the computer and DALI systems to configure, direct and parametrize DALI installations via masterCONFIGURATOR software**. DALI comfortDIM systems can take up to 120 luminaires.
